REFERENCE AID

CHINESE COMMUNIST PARTY PROVINCIAL LEADERS

A 73-2

January 1973

P R E F A C E

This publication provides biographic briefs on all officers of the 29 provincial-level Chinese Communist Party committees elected between December 1970 and December 1972. The briefs are arranged alphabetically by province and by rank order within the province. An alphabetical name index is also provided.

The orthography for personality names follows the Wade-Giles system for the romanization of Chinese characters. The appropriate Standard Telegraphic Code, the system of enumeration of Chinese characters, is included after the name of each individual.

A background statement, current provincial party position, other current positions, and major past positions are shown on separate lines following the name. Inclusive dates for positions are based on available sources but do not necessarily accurately reflect the individual's precise tenure in office. Also included in the brief, when available, are the earliest and latest date of criticism of the individual during the Cultural Revolution, an indication whether Peking authorities officially sanctioned the criticism, the date and place of birth and the latest recorded public appearance.

The following abbreviations are used in this reference aid:
